

I am writing to express my concern over the superbowl incident involving Janet Jackson's pierced breast. I am very concerned about this incident and feel that the incident showed blatant disregard for any public decency. These people are so caught up in their own celebrity and concern for their best interest that they have no regard for the impact of their actions on children. Ms. Jackson's behavior should be punished, along with the behavior of all involved, including Justin Timberlake, CBS and MTV. I hope that the FCC will use its authority to sanction all involved.

Thank you.
